

Fine Aggregate Angularity Device

Equipment ID: _____
Manufacturer: _____
Model #: _____
Serial #: _____
Storage Location: _____

Description: Funnel and Funnel Stand
Cylindrical Measure
Glass Plate
Square Spatula

Primary Purpose: Determining the void content of fine aggregates

Calibration Item: Verify critical dimensions and check physical condition

Calibration Procedure: In-House Procedure _____
Calibration Worksheet

Calibration Equipment: Ruler readable to 1 mm
Caliper readable to 0.1 mm
Straightedge
Protractor
Glass Plate (60 mm x 60 mm)
Grease or Vaseline

Calibration Interval: 12 months

Specifications: AASHTO T 304

Specified Tolerance: As stated in AASHTO T 304
