

IN-HOUSE PROCEDURE # _____

PROCEDURE FOR VERIFYING MALLET

Item:
Mallet

Purpose:
This method provides instructions for checking the mass of a rubber or rawhide head mallet.

Inspection Equipment Required:
1. Scale readable to 0.01 lb. (1 g) or better.

Tolerance:
Equipment shall meet the dimensional tolerances specified in the applicable test method.

Procedure:
1. Ensure scale is level.
2. Zero scale.
3. Place the mallet on the scale and record the mass to the nearest 0.01 lb. (1 g).
