

# Arkansas Unpaved Roads Training Program

Drainage Control and Mitigation of Erosion for Unpaved Roads

**Wednesday, April 22, 2026**

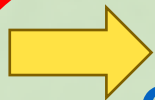

**9:00am – 4:00pm**

1414 Highway 65 South  
Quorum Court Room  
Clinton, AR 72031

Trouble with washouts on gravel roads? Dirt and gravel roads are a vital part of the state's transportation system, but heavy rainfall events can cause excessive erosion. County Judges, road foremen, crew leaders, and crew members can learn innovative ways to mitigate erosion while providing a quality driving surface.

## Key Topics:

- Gravel Road Construction
- Innovative ways to Mitigate Erosion
- Grade Breaks & Broad-Based Dips
- Ditches & Culverts
- Stream Crossings
- Field Exercise
