Asphalt Maintenance Treatment Options

Webinar

To register, visit
www.cttp.org/arltap

Arkansas Local Technical Assistance Program

Course Description:

Deteriorated asphalt pavements are often repaired using traditional methods such as a hot mix asphalt overlay, but that gets expensive! This 2-hour webinar will provide an overview of alternative surface treatments that can lengthen the life of the pavement structure, including chip seals, fog seals, thin overlays, hybrid chip seals, microsurfacing, and ultra-thin bonded wearing courses. PDHs available.

Who should attend?

Supervisors, decision makers, crew leaders/members, inspectors

Patrick Thomas, LTAP Program Manager – Patrick.Thomas@ardot.gov (501-569-2380)
Dr. Stacy G. Williams, CTTT Director – arltap@uark.edu (479-575-3997)
